## SUMMARY OF ST. LOUIS MARKETS.

After early advances local grain markets declined on heavy realizing, the net result being no change in the price of wheat or oats and a slight recession in corn quotations. Foreign markets were generally higher at the opening, and there was a fair volume of sutside speculative buying, aided by a good cash demand. While receipts were larger than on the corresponding day last year, they were not above the average. The Cincinsaff Price Current issued a double-barreled report as to the winter crop condition, which was used both by built and bears, as suited their purpose. Most reports from the extreme West indicated that the fall-planted grain was in serious need of moisture.

Corn started out well under the impetus of a good cash demand, and light primary nd local receipts. Enging continued heavy during the first hour, but later speculators blowed the lead of the wheat market and let go their holdings, with the result that ester quotations were below those of Wednesday.

There was a good cash and speculative demand for cats at the opening, but the s no better than steady at the close.

New York, Jan. 2.—Spot cotton closed quiet.

1-16: higher; middling uplands \$14: middling guift.

1-16: higher; middling spot 1.50: higher hower.

1-16: higher; and for the moment was without special leaning. Builts and bears were extremely cuttous and slow to take the initiative until the feeling among investors was known. Cables and the movement of the crop were against any improvement, but offsetting these factors were very builts reports from Southern spot markets and splendid trade statements from dry goods and cotton cloth markets. Soon after the call there was a general good-sired orders to buy late months were received from investors. From the slight start thus made the market rapidly grew firmer and speculative buying increased by leaps and bounds. There was little cotton for sale at any price, while the short interest seemed to be thoroughly frightened and in no position to offer resistence to buil efforts. From 8.68 May quickly advanced to 8.58, and then, after a slight reaction, made a new upward lurch this time touching \$12c before a reaction set in. Wall street picked up large blocks around the high figures of the morning, the more conservative longs selling for profits. Liverpool lost no time in getting into line and not only advanced in full keeping with our rise, but contributed buying orders. The South became a larger buyer on the advance and commission houses were made more busy than they have been in some weeks. After midding the market offered somewhat of a setback under a scramble for profits, started by a hig estimate for to-morrow's New Orleans receipts; but still later turned strong on remarkably bulling hip rices from Southern spot market prices. From \$16.0 May fully \$1.50.

From \$1.

New York, Jan. 9.—Dry goods business was

control of the contro

AFTER STRONG ADVANCE.

REACHED NEW HIGH POINT

Subsequent Decline Took Spirit Out of the Bulls in Other Lines.

Chicago, Jan. 9.-After being rushed by a bull movement to the high point of the year, wheat slumped badly, lost lc, and took the spirit out of the bulls in other pits. May wheat closed at a net loss of %6%c off, and May oats 14673c lower. Provisions closed unchanged to a shade lower. Wheat.

Numerous bullish conditions conspired with yesterday's curb strength to send wheat up by rapid jumps at the opening. Continued reports of the desperate condition of the winter crops from lack of moisture had as much as anything to do with the situation. Cables were up a little, mainly on New York's curb strength, but this, with small receipts, augured well. Professionals at once set to buying heavily, and commission houses put a flood of buy-ing orders in the pit. May, which opened and commission houses pit a nose of any ing orders in the pit. May, which opened it to life higher at 84% to 84%, soon went to 84%. From this price there were numerous and rapid changes. The market assumed much the same character it had yesterday and became nervous and erratic. The Government report, which is expected late to-morrow afternoon, set traders to guessing, and when several large professionals began selling for profit and numerous commission houses followed their lead, prices slid downward. There were several railies, but the heaviness in corn and May wheat helped to depress prices. May closed weak, %61% lower at the bottom figure for the day—83% 61%. Local receipts were 22 cars, none of contract grade.

POULTRY.

Day's Receipts at New York.

REPUBLIC SPECIAL.

New York, Jan. 2.—Live poultry receipts to day were 3 cars Western by freight and a mederate quantity by express. The market ruled steady on all descriptions of poultry at full, late current rates, with market cleaned up in good shape, but 3 cars more due from the West and 1 more will be reshipped from Philadelphia, as this market is higher than that, but it is not expected that very much will have to go over unsold. Fowls were steady at lic, while turkeys, when prime, brought the same figure. Ducks from Geese higher. Pigeons steady. Pucks—Western, pair, 154850; Southwestern 60676.

Dressed poultry receipts to-day were 2,119 pkss. The receipts were fairly heavy this morning and lows, while considerable miscellaneous lots came from near-by points. The demand was still confined to prime, heavy fowls, and reasonable not meated roasting chickens, with comparatively little of either available. Smail, young hen turkeys were generally held up to 18c, but where a few old hens or bruised birds were in a package 12 was difficult to exceed. Some marks of lowa young toms that were thin and red had to go at 11c. Prime heavy fowls add promptly at 1815c, but 18c was top on Southwestern fowls. A few large Indiana reasting chickens sold up to 12812bc, but 18c was top on southwestern fowls. A few large Indiana reasting chickens sold up to 12812bc, but 18c was top on sheet lowa chickens, while fully four-fitths from the latter sections dla not exceed 18c and even 3935c. Fancy ducks firm: ordinary inactive. Geese in fair supply and slow, unless fancy. Squabs in fair supply and Missouri and Iowa Shipments Among Day's Receipts at New York.

Chicago, Jan. 3.—Dressed poultry steady; tur-keys Strictles; chickens Surstee.

## BOND SALES AT NEW YORK. New York, Jan. 5.—Sales of bonds were made ere to-day as follows:

UNION TRUST LEADS BANK-ERS' LIST.

Tractions Are in Fair Demand, but Firmly Held at Higher Prices.

Transactions in local stocks were scattered throughout the list yesterday. While the volume of trading was fair, prices were not better than steady, except in a few instances, where advances were recorded. At the morning sersion St. Louis Transit was strong, with sales of 125 shares at \$33.874 United Rallways preferred and the 4 per cent bonds were in good demand, the former at \$86.50, and the latter at \$89.8715. but sellers were unwilling to make concessions, and no sales resulted.

Lincoln Trust was steady, with sales ranging from \$282 to \$283, the latter price being paid for an odd lot of five shares. Colonial Trust was taken at \$275, and Missouri Trust at \$170. New Mercantile Trust sold lower at \$414. St. Louis Trust was in fair demand at \$345. Granite-Bi-Metallic led the miscellaneous

list with sales at \$2.85. list with sales at \$2.55.

Brewery 65 and Exposition stock were steady and unchanged.

At the afternoon session there was little interest in tractions, the only transfers recorded being those of \$1,000 worth of United Railway 4s at \$89.574, and 25 St. Louis Transit at \$34.

Morning Session.

No. 310 North

Bid. Ask.

Bid. Ask.

Lorden prices were generally lower this morning than the closing prices here yesterday. Union Pacific was bought early in London by arbitrage tookers on an idea that they could sell it here trade through, as the stock yielded on local self in the self of th

Many of the active speculative stocks declined in the last hour on selling by a leaders' pool. Chicago was also a moderate seller. There were no new developments of any kind, and the selling was apparently simply a reversal of position on the part of the traders who were the principal buyers yesterday afternoon.

principal buyers yesterday afternoon.

Speculative elements inside and cutside the Stock Exchange aftempted to draw the inference this morning that the New York Central accident would force the Central management to acquire control of the Manhattan Elevated. The theory that some such action would be taken at once was helped by the purenase of 20,000 shares of Manhattan Elevated by one house, popularly adjudged for a pool, in which John D. Rockefeller and Frank J. Gould will be the chief interests. This was the Stock Exchange story. At the same time importance was attached to the running of an experimental electric train over the Second Avenue Line to-day, and estimates were gone over again as to what figure the earnings of the company will reach when electric installation is completed on the entire system.

Sugar was bought and bid up by pool brokers.

Sugar was bought and tid up by pool brokers and by a Washington house because of a confident feeling that the company will be benefited by congressional action in regard to the tariff on Cuban cane sugar. Part of the recent buying from lower Wall street was said to have been on estimates in regard to the profits of the company during the year just ended. One report was that the company earned 32 per cent on the common stock. In the trade it was thought the earnings largely exceeded 39 per cent. The selling was to a great extent by Boston houses that have been borrowers of stock for some time.

Yesterday and to-day buying orders appeared in American Tobacco, and the small amount of stock in sight was taken at the seller's terms. The buying was adjudged to be for the purpose of making the holdings of the Consolidated Company as large as possible, and strengthen its position as the controlling interest in the American Tobacco Company.

Ican Tobacco Company.

Delaware and Hudson directors meet to morrow to act on the styldend rate for the year. Reports have been circulated that the rate would
be 8 per cent.
